FROM: Marilyn H. Browne, Chief, Bureau of Local Assessment  
DATE: May 13, 2011  
TOPIC: ADDITIONAL LANDLINE TELEPHONE & TELEGRAPH DATA  
FISCAL YEAR 2012 – FCC CATEGORIES

---

Today, May 13, 2011 the Commissioner of Revenue posted the certified full and fair cash valuation of taxable telephone and telegraph machinery, poles, wires and underground conduits, wires and pipes of the [centrally valued landline telephone and telegraph companies](#), as of January 1, 2011 for FY2012.

Companies are required to report their personal property to the Department of Revenue using Federal Communications Commission (FCC) categories. We have aggregated the companies' valuation data by FCC category for each company and relevant community. In some instances you will notice a slight difference from the totals initially reported, these are rounding differences only. The **certified values** issued on May 13, 2011 should be used for tax rate setting purposes and for issuing tax bills to companies.

The additional data by FCC Code is on the website previously referenced in a pivot table that operates in the same way as the FY2012 Centrally Valued Landline Telephone and Telegraph Certified Values pivot table.

Questions regarding valuations may be directed to Walter Sandoval Dusza at 617-626-4087 or John Gillet at 617-626-3605.
