AN ACT MAKING APPROPRIATIONS FOR THE FISCAL YEAR 2009 FOR THE MAINTENANCE OF THE DEPARTMENTS, BOARDS, COMMISSIONS, INSTITUTIONS AND CERTAIN ACTIVITIES OF THE COMMONWEALTH, FOR INTEREST, SINKING FUND AND SERIAL BOND REQUIREMENTS AND FOR CERTAIN PERMANENT IMPROVEMENTS.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is immediately to make appropriations for the fiscal year beginning July 1, 2008, and to make certain changes in law, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same as follows:

SECTION 1. To provide for the maintenance of the several departments, boards, commissions and institutions and other services, and for certain permanent improvements and to meet certain requirements of law, the sums set forth in sections 2, 2B, 2D and 3, for the several purposes and subject to the conditions specified in sections 2, 2B, 2D and 3, are hereby appropriated from the General Fund unless specifically designated otherwise, subject to the provisions of law regulating the disbursement of public funds and the approval thereof for the fiscal year ending June 30, 2009. All sums appropriated under this act, including supplemental and deficiency budgets, shall be expended in a manner reflecting and encouraging a policy of nondiscrimination and equal opportunity for members of minority groups, women and handicapped persons. All officials and employees of an agency, board, department, commission or division receiving monies under this act shall take affirmative steps to ensure equality of opportunity in the internal affairs of state government, as well as in their relations with the public, including those persons and organizations doing business with the commonwealth. Each agency, board, department, commission or division, in spending appropriated sums and discharging its statutory responsibilities, shall adopt measures to ensure equal opportunity in the areas of hiring, promotion, demotion or transfer, recruitment, layoff or termination, rates of compensation, in-service or apprenticeship training programs and all terms and conditions of employment.

SECTION 3. Notwithstanding any general or special law to the contrary, for the fiscal year ending June 30, 2009 the distribution to cities and towns of the balance of the State Lottery Fund, as paid by the treasurer from the General Fund in accordance with clause (c) of the second paragraph of section 35 of chapter 10 of the General Laws, shall be \$810,875,000 and shall be apportioned to the cities and towns in accordance with this section.

Notwithstanding any general or special law to the contrary, the total amounts to be distributed and paid to each city and town from the General Fund, shall be \$124,153,283 and shall be apportioned to the cities and towns in accordance with this section; provided further, that said payments shall be considered part of the distribution to cities and towns of the balance of the State Lottery Fund for the purpose of the definition of "General revenue sharing aid" in section 2 of chapter 70 of the General Laws.

Notwithstanding any general or special law to the contrary, the total amounts to be distributed and paid to each city and town from item 0611-5500 of section 2 shall be as set forth in the following lists. The amounts to be distributed from said item 0611-5500 of said section 2 shall be in full satisfaction of the amounts due under section 37 of chapter 21 of the General Laws.

Notwithstanding section 2 of chapter 70 of the General Laws or any other general or special law to the contrary, except for section 12B of chapter 76 and section 89 of chapter 71 of the General Laws, for fiscal year 2009 the total amounts to be distributed and paid to each city and town from item 7061-0008 of section 2 shall be as set forth in the following lists. The specified amounts to be distributed from said item 7061-0008 of said section 2 shall be in full satisfaction of the amounts due under chapter 70 of the General Laws.

For fiscal year 2009, the foundation budget categories for each district shall be calculated in the same manner as in fiscal year 2008. The target local share shall be calculated using the same methodology used in fiscal year 2008. Preliminary local contribution shall be the municipality's fiscal year 2008 minimum required local contribution, increased or decreased by the municipal revenue growth factor; provided, that if a municipality's preliminary contribution as a percentage of foundation is more than 5 percentage points lower than the target local share, the preliminary contribution shall be recalculated using the municipality's revenue growth factor plus 1 percentage point; provided further, that if a municipality's preliminary contribution as a percentage of foundation is more than 10 percentage points lower than the target local share, the preliminary contribution shall be recalculated using the municipality's revenue growth

factor plus 2 percentage points. Required local contributions shall be calculated using the same methodology used in fiscal year 2008; provided, that in any municipality with a preliminary contribution higher than its target local contribution, required local contribution shall be the preliminary local contribution reduced by 33 per cent of the gap between the preliminary local contribution and the target local contribution. Required local contribution shall be allocated among the districts to which a municipality belongs in direct proportion to the foundation budgets for the municipality's pupils at each of those districts.

For fiscal year 2009, the "foundation aid increment" shall be the difference between: (a) the positive difference between a district's foundation budget and its required district contribution; and (b) prior year aid. The "down payment aid increment" shall be 33 per cent of the positive difference between 100 per cent of a district's target aid share and its prior year chapter 70 aid, minus the foundation aid increment; provided, that the target aid share shall be calculated in the same way as in fiscal year 2008 using updated income, equalized valuation and foundation budget data. The minimum target aid share shall be 17.5 per cent. The "growth aid increment" shall be equal to (a) the product of the target aid percentage multiplied by the difference between the current and prior year foundation budget minus (b) the foundation aid increment and down payment aid increment. The "minimum aid increment" shall be equal to (a) \$50 multiplied by the district's foundation enrollment minus (b) the sum of the foundation aid increment, down payment aid increment and growth aid increment. In no case shall the foundation aid increment, down-payment aid increment, growth aid increment, or minimum aid increment be less than zero.

Chapter 70 aid for fiscal year 2009 shall be the sum of prior year aid plus the foundation aid increment plus the down payment aid increment, if any, plus the growth increment, if any, plus the minimum aid increment, if any. No district shall receive chapter 70 aid in an amount greater than the district's foundation budget. If there is a conflict between the language of this section and the distribution listed below, the distribution below shall control.

The department of education shall not consider health care costs for retired teachers to be part of net school spending for any district in which such costs were not considered part of net school spending in fiscal year 1994.

No payments to cities, towns or counties maintaining an agricultural school pursuant to this section shall be made after November 30 of the fiscal year by the state treasurer until he receives certification from the

commissioner of revenue of the commissioner's acceptance of the prior fiscal year's annual financial reports submitted pursuant to section 43 of chapter 44 of the General Laws. The state treasurer shall make advance payments for some or all of periodic local reimbursement or assistance programs to any city, town, regional school district or independent agricultural and technical school that demonstrates an emergency cash shortfall, as certified by the commissioner of revenue and approved by the secretary of administration and finance, pursuant to guidelines established by the secretary.

SECTION 10. Chapter 83 of the General Laws is hereby amended by inserting after section 1 the following 3 sections:-

Section 1A. Notwithstanding the provisions of sections 1 and 3 to the contrary, any municipality or sewer district adopting this section is hereby authorized to lay out, construct, maintain and operate a system or systems of common sewers and main drains in public or private ways for that part of its territory as it adjudges necessary to reduce or eliminate the impacts of nutrient enrichment on surface water bodies or sources of drinking water with such connections and other works as may be required for a system or systems of sewerage and drainage, and sewage treatment and disposal. Adoption of this section is subject to majority vote of the municipality and subject further to said municipality having an approved comprehensive water resources management plan hereinafter referred to as (CWMP) as defined by the department of environmental protection hereinafter referred to as (DEP).

Section 1B. At the commencement of operation of the municipalities' sewer system authorized by section 1A, the owner of land abutting upon a private or public way in which a common sewer has been laid shall be required by the board or officer having charge of the maintenance and repair of sewers to connect such land with a common sewer only if the land in question is within the areas identified in the department of environmental protection-approved CWMP and has been specifically identified in the plan as requiring wastewater collection and treatment for flows in existence on said properties at the time of adoption of this act in order to protect surface waters or drinking water resources from the effects of nutrient enrichment; or the on-site subsurface sewage disposal system serving said land fails to comply with the provisions of 310 CMR 15.000, et seq. and an on-site subsurface sewage disposal system cannot be constructed on the property in compliance with said regulations and an enhanced treatment system under remedial use cannot be designed and constructed to adequately treat sewage from said property; or to service housing of which at least 15 per cent of the housing units are deed restricted to residents with incomes no greater than 80 per cent of the area median income paying no more than 30 per cent of their income towards

housing. The town shall not allow an abutting property owner utilizing an enhanced treatment system under remedial use to opt out of connecting to the sewer system unless the town implements a monitoring and inspection plan approved by the department of environmental protection for such remedial system or systems. Such plan may include the assessment of a reasonable fee by the board of health to implement the monitoring and inspection plan.

Notwithstanding any provision of sections 1 and 3 to the contrary, owners of land not identified in the CWMP as needing to be connected to the municipal treatment works shall not be permitted to connect to the sewer system. Said plan may be amended from time to time by the board or officer having charge of sewers, after a public hearing conducted to consider such amendment, and upon approval of the department of environmental protection. The board or officer having charge of sewers shall adopt regulations within 120 days after the adoption of this act establishing publication and notification procedures to carry out the purposes of this section.

Section 1C. After commencement of operations of the sewer system authorized pursuant to section 1A, additional connections shall be permitted within the final area of concern by such board or officer having charge of the maintenance and repair of sewers, subject to available capacity, only upon certification by the board of health that the on-site subsurface sewage disposal system on land abutting upon a private or public way in which a common sewer has been laid cannot comply with the provisions of 310 CMR 15.000, et seq., or in the case of new construction, expansion of an existing structure, a change in use, or increases in flow from said land, such expansion, change in use, or increase in flow does not result in sewage flow in excess of the amount of said regulations flow capacity or actual flow resulting from a legal use of said land, whichever is greater, which existed on the date of adoption of this act as determined by the board of health. Notwithstanding anything to the contrary contained herein, the board or officer having charge of the maintenance and repair of sewers may at any time permit extensions, new connections or increases in flow to the sewer system, subject to capacity, to serve municipal buildings, public restrooms, or other public service uses, including but not limited to housing of which at least 15 per cent of the housing units are deed restricted to residents with incomes no greater than 80 per cent of the area median income paying no more than 30 per cent of their income towards housing.

Section 1D. Notwithstanding the provisions of chapters 80 and 83 to the contrary, a municipality acting under section 1A may make assessments upon owners of land abutting upon a private or public way in which a common sewer has been laid only at the time of actual connection to the common sewer.

Nothing herein shall preclude the town from making estimated sewer assessments pursuant to section 15F. The municipality may make equitable adjustments to the annual charges established pursuant to section 16 for the use of common sewers by owners of land who connect under this act for the purpose of insuring an equitable distribution of the total sewer system costs, including assessments and sewer use charges.

Section 1E. Every decision by the board or officer having charge of sewers permitting or denying a connection to the sewer system pursuant to sections 1A to 1D, inclusive, shall be made in writing. Any person aggrieved by such a decision may appeal said decision within 30 days of issuance pursuant to the provisions of section 14 of chapter 30A.

Section 1F. In carrying out the provisions of sections 1A to 1E, inclusive, a municipality shall not discriminate against any person on the grounds of race, color, marital status, physical disability, age, sex, sexual orientation, religion, ancestry or national origin in any manner prohibited by federal or state law.

Section 1G. Notwithstanding the provisions of any general or special law to the contrary, a municipality with a comprehensive water resources management plan under review or approved by the department of environmental protection may establish and maintain a separate account into which it may collect and deposit and expend funds from property owners for the difference in cost between a conventional subsurface wastewater disposal system as required in 310 CMR 15.00, et seq. and the cost of a subsurface wastewater disposal system designed to reduce the nitrogen discharge from said system as long as the property in question is identified in the CWMP as being a priority for the installation of a wastewater collection and treatment system for the purposes of reducing the impacts of excessive nitrogen on marine waters and drinking water supplies. Funds from this account may be used only for the purpose of the construction, maintenance and operation of said wastewater treatment and collection works and shall be applied to the costs of connection and or betterment assessed to the property in question.

Section 1H. Notwithstanding section 7 of chapter 44, a municipality or sewer district adopting section 1A may borrow and assess betterments for a term not to exceed 50 years or the useful life as approved by the department of environmental protection, whichever is shorter, for the construction its wastewater treatment systems and conveyances determined; and provided further that short term borrowing may extend for a period not to exceed 5 years.

Procuring Outside Consultants with Fees from Applicants

The Office of the Inspector General endeavors to assist municipalities in interpreting the Uniform Procurement Act, M.G.L. c.30B. This advisory was prepared in response to confusion among local jurisdictions about the application of that statute to the process for hiring outside consultants under M.G.L. c.44, §53G. Both statutes are applicable to the hiring process and can easily be followed with the help of the following discussion. This advisory will begin with a brief overview of M.G.L. c.44, §53G, and then proceed to a discussion of how M.G.L. c.30B applies to procurements of outside consultants.

Section 53G of M.G.L. c.44 authorizes Zoning Boards of Appeal, Planning Boards, Boards of Health and Conservation Commissions to establish special revolving funds for fees payable by applicants for permits and approvals. The boards and commissions may use revolving funds, without appropriation, to hire outside consultants to examine the applications. Once an applicant's project is completed or their application is denied, the unused portion of the fee is returned to them, plus interest.

According to the Massachusetts Department of Revenue (DOR), a revolving fund "allows a community to raise revenues for a specific service and use those revenues without appropriation to support the service."¹ Generally, municipal finance law provides that all monies received by municipal departments, boards and committees belong to the community's general fund and prohibits the expenditure of those funds without specific appropriation.² Revolving fund statutes specifically exempt particular receipts from these requirements by earmarking them for specific spending purposes and authorizing a particular municipal official to spend them for those purposes without appropriation.

² M.G.L. c.44, §53.

Authority to Hire Consultants

Funds from an M.G.L. c.44, §53G account may be used when implementing authority conferred by the following laws:

- Zoning Boards of Appeals, M.G.L. c.40A, §§9 or 12
- Low or Moderate Income Housing, M.G.L. c.40B, §21
- Subdivision Control, M.G.L. c.41, §81Q
- Boards of Health, M.G.L. c.111, §31
- Conservation Commissions, M.G.L. c.40, §8C; M.G.L. c.131, §40; or any local wetlands ordinance or bylaw.

It is important to keep in mind that M.G.L. c.44, §53G does not authorize the hiring of consultants or the imposition of fees to do so; it merely provides a means by which to pay the cost of certain consultants without appropriation. Municipalities may only hire these outside consultants without appropriation if they have promulgated rules for the hiring of outside consultants under one of the statutes listed in M.G.L. c.44, §53G.

Some jurisdictions have encountered legal trouble by assuming M.G.L. c.44, §53G grants them the authority to hire a type of consultant that is not expressly authorized by the above-stated laws, and to impose those fees on applicants. For example, one Zoning Board of Appeals enacted a rule providing that “in hiring outside consultants, the Board may engage...lawyers...who can assist the Board in analyzing a project to ensure compliance with all relevant laws,” and requiring the permit applicant to pay a “review fee” covering the reasonable cost of legal fees for that service.³ On its face, the rule appeared to be perfectly reasonable. However, the Massachusetts Housing Appeals Committee held that because the rule was promulgated under the authority of M.G.L. c.40B, which does not contain specific authority to hire lawyers, the review fee was invalid. The Housing Appeals Committee found, based on the language of the statute and cases interpreting it, that M.G.L. c.40B only allows fees to be imposed for “technical review” and not for legal services. Consequently, the jurisdiction had to assume a cost of almost \$20,000 in legal fees it had charged to the applicant.

If you have any questions about whether a given fee or expense may permissibly be transferred to applicants, please check with your legal counsel prior to incurring the expense.

Implementation of M.G.L. c.44, §53G

Section 53G of M.G.L. c.44 specifies certain administrative rules a municipality must enact prior to establishing a revolving fund. Among other things, a municipality must establish and vote on rules that:

- Impose a reasonable fee for the employment of outside consultants, and
- Provide a means to appeal the choice of consultants to the city council or town board of selectmen.

While the procedure for appeals is largely at the discretion of the municipality, the subject matter of an appeal is limited to claims that the selected consultant either has a conflict of interest or does not possess the minimum required qualifications. In addition, a consultant must possess minimum qualifications that include either 1) an educational degree in or related to the field at issue or 2) three or more years of practice in the field at issue or a related field. Note that the right to appeal and the procedure for appeals under M.G.L. c.44, §53G are in addition to any rights of bidders to challenge an award under M.G.L. c.30B. Furthermore, the appeals procedure under M.G.L. c.44, §53G does not preclude further judicial review if otherwise permitted by law.

For the accounting procedures that govern special revolving funds for hiring outside consultants under one of the statutes listed in M.G.L. c.44, §53G, see page 3, item B, Accounting Procedures, of Massachusetts Department of Revenue, Property Tax Bureau, Informational Guideline Release: Special Revolving Funds for Hiring Outside Consultants, IGR No. 03-208 (August 2003), available at http://www.mass.gov/Ador/docs/dls/publ/igr/2003/igr_03_208.pdf.

M.G.L. c.44, §53G and M.G.L. c.30B

Chapter 30B establishes procedures to follow for most agreements for supplies and services, dispositions of surplus supplies, and real property acquisitions and dispositions by local governmental bodies. Section 2 of M.G.L. c.30B defines “services” as “The furnishing of labor, time, or effort by a contractor, not involving the furnishing of a specific end product other than reports.” Hiring an outside consultant clearly falls under this definition. Using M.G.L. c.44, §53G does not excuse the jurisdiction from complying with the law simply because the services are paid for by the applicant and not the jurisdiction; for the purposes of M.G.L. c.30B, the person who pays for services is irrelevant. The law applies because there is an agreement between the jurisdiction and the vendor to perform consulting services.

When procuring services in connection with M.G.L. c.44, §53G, jurisdictions are required to follow M.G.L. c.30B unless the services are specifically exempt. In limited circumstances, the employment of an outside consultant will fall under one of the statutory exceptions to M.G.L. c.30B. An example of this would be a town conservation commission contracting with a regional planning commission to assist it in reviewing wetland applications. This contract would be exempt as an agreement between political subdivisions under M.G.L. c.30B, §1(b)(9) because the conservation commission is purchasing services from one of the governmental entities that are included in M.G.L. c.30B, §1(b)(9).

It is important to note that the exemption for contracts with “designers” under M.G.L. c.30B, §1(b)(15) only applies to certain services, including studies, surveys, soil tests and cost estimates that are done in connection with construction, and does not include the review of another designer’s plans. A contract with a designer to review the work of another designer — such as the review of a subdivision plan submitted by an applicant — is subject to M.G.L. c.30B. “Hybrid” contracts that include both exempt services and a peer review will also be subject to M.G.L. c.30B. For more information on which designer services are exempt from M.G.L. 30B, see “Designer Contracts and Chapter 30B: When are Designer Contracts Exempt from Chapter 30B?” *Procurement Bulletin*, v12 n2 p2 (2006), available at <http://www.mass.gov/ig/publ/nlmay06.pdf>.

Procurements for contracts valued at less than \$5,000 must be based on “sound business practices.”⁴ Procurements for contracts valued at \$5,000 or more, but less than \$25,000, require the solicitation of at least three oral or written quotes.⁵ Procurements for contracts valued at \$25,000 or more require either an Invitation for Bid (IFB)⁶ or a Request for Proposal (RFP)⁷ process. Note that a separate procurement process must be performed for each new consulting contract.

If you choose to solicit quotes, this Office recommends you use a standardized form, such as the attached sample Request for Quotes form. For a procurement pursuant to M.G.L. c.44, §53G, your quality requirements must include at least one of the “minimum qualifications” listed by the statute: either an educational degree in or related to the field at issue, or three or more years of practice in the field at issue or a related field. You may choose to include additional quality requirements to fit the demands of your particular project. Remember, when soliciting quotes or using an IFB, you must select the responsive and responsible bidder offering the lowest price, so you will want to ensure your quality requirements are written strictly enough that you are willing to award to any vendor who meets your requirements. You will only consider bidders that meet all of your quality requirements, so decide in advance which of the two requirements you will include, or draft a quality requirement that allows either of the two minimum qualifications.

Those governmental bodies that have appointed a Chief Procurement Officer (CPO) may also use an M.G.L. c.30B, §6 RFP process to procure the outside consultant. It is this Office’s opinion that an RFP process can be used even when the dollar value of the contract is less than the statutory threshold, but that you must follow all of the requirements of M.G.L. c.30B, §6. If you have any questions about how to implement a procurement process under M.G.L. c.30B, please see our procurement manual, entitled *Municipal, County, District, and Local Authority Procurement of Supplies, Services, and*

If the services you are procuring are exempt from M.G.L. c.30B, this Office recommends that you first check your local by-laws, ordinances, or procurement procedures to determine whether or not your local jurisdiction has established requirements to procure contracts which are not subject to M.G.L. c.30B. This Office recommends conducting a competitive process in order to obtain the needed quality of services at the best price, even if the proposed contract is exempt from M.G.L. c.30B.
