BACKGROUND

On October 1, 1981, the Federal Department of Health and Human Services established the Title XX – Social Services Block Grant, as one of the seven block grant programs authorized by the Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35).

The Social Services Block Grant is intended to consolidate Federal assistance to States for social services into a single grant, increase State flexibility in using social service funds, and encourage each state to furnish services directed toward the goal of:

- ▶ Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency;
- ▶ Achieving or maintaining self-sufficiency, including reduction or prevention of dependency;
- ▶ Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating or re-uniting families;
- ▶ Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care; and
- ▶ Securing referral or admission for institutional care when other forms of care are not appropriate or providing services to individuals in institutions.

The Omnibus Budget Reconciliation Act of 1981 amended the former Title XX legislation. The main effects of the change over from the Title XX - Social Services Block Grants* were the following:

- ▶ A reduction in the Federal Allocation to the States. Nationally, the allocation dropped from \$2.9 billion in Federal FY 1981 to \$2.4 billion in Federal FY 1982. In Massachusetts the decrease was from \$78.9 million to \$60.4 million. With the exception of a modest increase between 1998 and 1999 and between 2010 and 2011, the SSBG allocations for Massachusetts have decreased consistently through the last few years.
- ▶ The State has continued to receive Block Grant funds on an annual basis for over twenty-five years.
- ▶ Each year the State must submit a pre-expenditure report regarding the intended uses of Social Services Block Grant funds. The report must provide information on the types of activities to be supported and categories. This document is the Massachusetts pre-expenditure report for State Fiscal Year 2013.
- ▶ State agencies will continue to provide opportunities for public comment in planning for the expenditure of Block Grant Funds. A later section of this document describes how the Department of Children and Families proposes to meet these requirements.
- ▶ The State may use the Block Grant to provide social services that address the five goals of the grant. The State selects the services that it wishes to provide. The funds, however, may not be used for:
 - The purchase or improvement of land, or the construction, or permanent improvement (other than minor remodeling) of a building;

- The provision of cash payments for costs of subsistence or for the provision of room and board (other than the costs of subsistence during rehabilitation, room and board provided for a short term as an integral but subordinate part of a social service, or temporary emergency shelter provided as a protective service);
- The payment of wages of any individual as a social service (other than payment of the wages of welfare recipients employed in the provision of child day care services);
- The provision of medical care (other than family planning services; rehabilitation services, or initial detoxification of an alcoholic or drug dependent individual) unless it is an integral but subordinate part of a social service for which the Social Service Block Grant may be used;
- Social services (except services to an alcoholic or drug dependent individual or rehabilitation services) provided in and by employees of a hospital, nursing facility, or prison, to any individual living in such an institution;
- The provision of any educational service which the State makes generally available to its residents without cost and without regard to their income;
- Any child day care services unless such services meet applicable standards of State and local law;
- For the provision of cash payments as a service; or
- Any payment of any item or service (other than in an emergency) furnished by or at the direction of an individual or entity excluded from participation in the program as a result of program abuse.

** The above restrictions are the same as those in the former Title XX program.*

ADMINISTRATION OF THE SOCIAL SERVICES BLOCK GRANT IN MASSACHUSETTS

In FY 1982, the Governor designated the Department of Social Services to administer the Social Services Block Grant in Massachusetts on behalf of the Department of Social Services (DSS) and the Massachusetts Commission for the Blind (MCB). Since October 1, 1982, MCB has administered a separate program and has published a separate pre-expenditure report. In July 2008, the Department of Social Services was renamed the Department of Children and Families.

The Massachusetts Department of Children and Families, the Massachusetts Commission for the Blind and the Executive Office of Health and Human Services (EOHHS) have an agreement by which the Block Grant funds will continue to be allocated annually between DCF and MCB. The allocation breakdown is as follows:

Historic SSBG Allotments (Federal Fiscal Year)					
FY2011 (Final)		FY2012 (Final)		FY2013 (Projected)	
DCF:	\$ 35,581,056	98%	DCF:	\$ 35,133,801	98%
MCB:	\$ 726,144	2%	MCB:	\$ 717,016	2%
	\$ 36,307,200	100%		\$ 35,850,817	100%
				\$ 35,133,801	98%
				\$ 717,016	2%
				\$ 35,850,817	100%

In FY 1982, MCB received its funds through DSS; in FY 1983, MCB began receiving its funds directly from Washington, D.C.

THE PLANNING AND BUDGET PROCESS

The Department of Children and Families budget process for State Fiscal Year 2013 is reflective of an organizational structure that defines different and distinct roles for both DCF Central Office and DCF Area Offices. Within this framework, the Central Office coordinates the development of major policies and provides direction and guidance to the Area Offices on interpretation and implementation. Because it is a major management planning document, the coordination of the budget is a Central Office function, with supporting documentation provided by field management.

DCF Area Offices are responsible for direct service delivery to clients and are most knowledgeable about individual client needs. Therefore, client-specific decisions about the distribution of resources are made by Area Office managers, in accordance with DCF's general policies and goals. This activity represents the critical linkage of resources to goals. The Area Office will be supported in this process by the Area Boards, whose unique understanding of community needs will enhance decision making.

The following is a chronology of events in the development of the Department of Children and Families budget for Fiscal Year 2013:

- ▶ **August – September 2011:** Department development and preparation of its State Fiscal Year 2013 budget request document;
- ▶ **October 2011:** Review and examination of the Department's budget request by the Executive Office of Health and Human Services (EOHHS) culminating in the Secretary's recommendations to the Executive Office of Administration and Finance (EOAF);
- ▶ **November 2011:** Review and examination of the Secretary of EOHHS recommendations to the Governor;
- ▶ **December 2011:** Ongoing discussions between EOHHS and EOAF on preliminary recommendations;
- ▶ **January 2012:** Publication of the House Two document, which is the Governor's budget recommendation to the Legislature;
- ▶ **March - April 2012:** The House and Senate Committees on Ways and Means conduct hearings and analyze the Governor's recommendations. Each Committee reports separately a version of the budget to which its respective membership makes amendments and passes a final bill;
- ▶ **April 2012:** The House passes its version of the Fiscal Year 2013 budget;
- ▶ **May 2012:** The Senate passes its version of the Fiscal Year 2013 budget;
- ▶ **June 2012:** A joint legislative conference committee presents its final budget document to the Governor for his signature into law;
- ▶ **July 2012:** State Fiscal Year 2013 begins.

PUBLIC PARTICIPATION IN THE PLANNING AND BUDGET PROCESS FOR FY 2013

The citizens of the Commonwealth of Massachusetts have had an opportunity to review and comment on the DCF budget at several points in its development.

- ▶ By law, all Executive Offices must make available copies of the agencies' budget requests and hold public hearings. The Executive Office of Health and Human Services held public hearings on the agencies' SFY 2013 budget requests in the fall of 2011.
- ▶ The House and Senate Ways and Means Committees held separate public hearings on the DCF budget in the winter of 2012.
- ▶ This report is being published as a pre-expenditure report, based on the projected SFY 2013 General Appropriations Act. DCF held a public hearing in November 2011 to solicit comment on the agency's plans for the Title XX Social Services Block Grant for FY 2012. DCF will hold a public hearing in the fall of 2012 to solicit comments regarding the agency's plan for use of the SSBG funds for FY 2013.

TRANSFERABILITY OF FUNDS

Federal statute permits a State to transfer up to 10 percent of its annual allotment to other block grant programs. Currently Massachusetts does not enact this provision; however, as previously noted 98% of the Block Grant is directly allocated to the MA Department of Children and Families and 2% is directly allocated to the Massachusetts Commission for the Blind. The Department received a 10% transfer of Temporary Assistance for Needy Families (TANF) Block Grant throughout SFY 2012, and plans to exercise a 10% TANF transfer in SFY

EXPENDITURES FOR FY 2012

Table A identifies the services that will be supported by the Social Services Block Grant during SFY 2013.

- ▶ **Purchased Services:** This item includes estimated expenditures for contracted services delivered by approved providers and non-contracted services delivered by individual vendors.

Some DCF expenditures are not eligible under the Block Grant. For example: maintenance costs for substitute care where funds are expended from other federal grants or reimbursable under other Federal programs. The second column in Table A excludes these ineligible costs.

SERVICES AND TARGET POPULATIONS TO BE SUPPORTED BY THE BLOCK GRANT

Table B describes services provided and target populations to which the services are directed. In addition to care and service need criteria, a special effort is being made to target services to linguistic and cultural minority groups. DCF does not currently forecast this data for inclusion in SSBG pre-expenditure reports.

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For grantees other than individuals, Alternate I applies.
4. For grantees who are individuals, Alternate II applies.
5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll.
