

MassHealth

ICD-10 Implementation

May 9, 2012

- Background
- Structural Changes
- Code Mapping
- Who's Impacted by ICD-10?
- MassHealth Approach
- What You Should Do Now?
- Q&A

- **January 16, 2009:** HHS published a final rule on ICD-10 requiring all HIPAA covered entities to adopt ICD-10-CM/PCS codes by October 1, 2013. ICD-10 Diagnosis and In-Patient Procedure codes must be used for all health care services provided in the U.S on or after this date.
- **February 14, 2012:** HHS announced an intent to delay the implementation of ICD-10
- **April 9, 2012:** HHS announced that ICD-10 would be delayed until 10/1/14 via the Health Plan Identifier interim final rule process. Organizations have until May 17, 2012 to submit comments to HHS regarding the delayed implementation date.

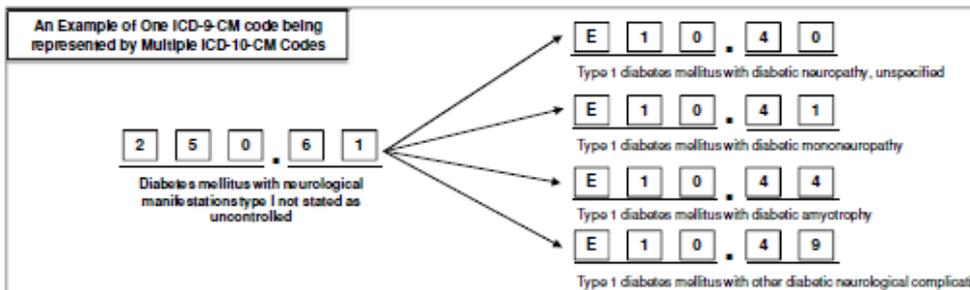

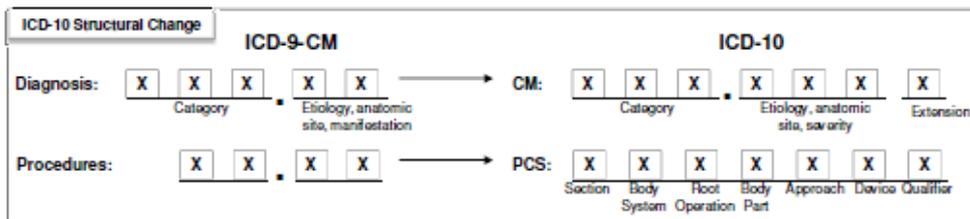

This means that:

- ICD-10 Diagnosis codes must be used for services performed on or after 10/1/14
- ICD-10 PCS codes must be used for all in-patient services with a date of discharge on or after 10/1/14

- The transition to ICD-10 is occurring because ICD-9 is:
 - Limited in the patient, procedural, and medical data it can collect
 - 30 years old and is inconsistent with current medical practice
 - At capacity for new codes and categories required
- Penalties for non-compliance could range from \$25K per HIPAA violation up to \$1.5M. CMS must clarify the penalties for non-compliance
- **Please note:** Providers only need to map the codes that they use in day-to-day operations; should evaluate “new” codes (i.e. codes without an ICD-9 counterpart)

Code	ICD-9	ICD-10
Diagnosis (CM)	13,000 codes	68,000 codes
	3–5 Digits (Alpha/Num)	3-7 Digits (Alpha/Num)
In-Patient Procedure (PCS)	3,000 codes	72,081 codes
	3-4 Digits (Num)	7 Digits (Alpha/Num)

ICD-10 provides greater specificity:

Leading to a 'many-to-many' relationship:

4 ICD-9 Codes

845.00 Sprain and strain of ankle unspecified site

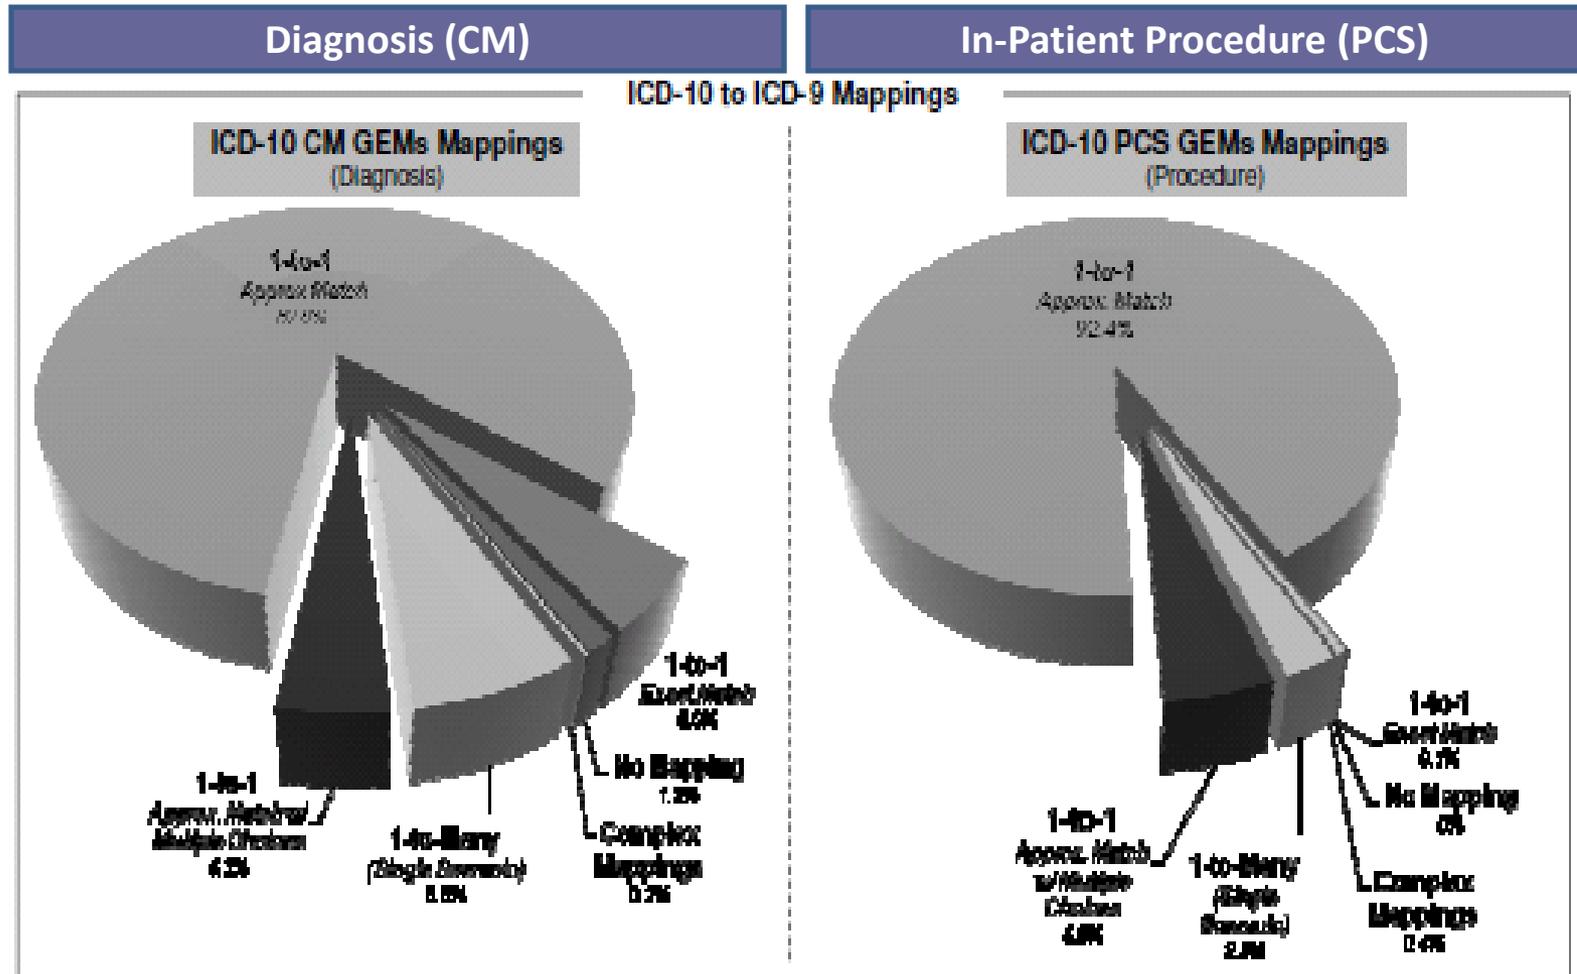

845.01 Sprain and strain of ankle/ Deltoid ligament/ Internal collateral ligament

845.02 Sprain and strain of ankle, Calcaneofibular (ligament)

845.03 Sprain and strain of ankle, Tibiofibular (ligament) distal

72 ICD-10 Codes

993.401A Sprain of unspecified ligament of right ankle - initial encounter
993.401D Sprain of unspecified ligament of right ankle - subsequent encounter
993.4010 Sprain of unspecified ligament of right ankle - sequela
993.402A Sprain of unspecified ligament of left ankle - initial encounter
993.402D Sprain of unspecified ligament of left ankle - subsequent encounter
993.4020 Sprain of unspecified ligament of left ankle - sequela
993.409A Sprain of unspecified ligament of unspecified ankle - initial encounter
993.409D Sprain of unspecified ligament of unspecified ankle - subsequent encounter
993.4090 Sprain of unspecified ligament of unspecified ankle - sequela
993.421A Sprain of deltoid ligament of right ankle - initial encounter
993.421D Sprain of deltoid ligament of right ankle - subsequent encounter
993.4210 Sprain of deltoid ligament of right ankle - sequela
993.422A Sprain of deltoid ligament of left ankle - initial encounter
993.422D Sprain of deltoid ligament of left ankle - subsequent encounter
993.4220 Sprain of deltoid ligament of left ankle - sequela
993.429A Sprain of deltoid ligament of ankle unspecified - initial encounter
993.429D Sprain of deltoid ligament of ankle unspecified - subsequent encounter
993.4290 Sprain of deltoid ligament of ankle unspecified - sequela
993.411A Sprain of calcaneofibular ligament of right ankle - initial encounter
993.411D Sprain of calcaneofibular ligament of right ankle - subsequent encounter
993.4110 Sprain of calcaneofibular ligament of right ankle - sequela
993.412A Sprain of calcaneofibular ligament of left ankle - initial encounter
993.412D Sprain of calcaneofibular ligament of left ankle - subsequent encounter
993.4120 Sprain of calcaneofibular ligament of left ankle - sequela
993.419A Sprain of other ligament of unspecified ankle - initial encounter
993.419D Sprain of other ligament of unspecified ankle - subsequent encounter
993.4190 Sprain of other ligament of unspecified ankle - sequela
993.432A Sprain of tibiofibular ligament of left ankle - initial encounter
993.432D Sprain of tibiofibular ligament of left ankle - subsequent encounter
993.4320 Sprain of tibiofibular ligament of left ankle - sequela
993.433A Sprain of tibiofibular ligament of right ankle - initial encounter
993.433D Sprain of tibiofibular ligament of right ankle - subsequent encounter
993.4330 Sprain of tibiofibular ligament of right ankle - sequela
993.439A Sprain of other ligament of ankle and foot level - initial encounter
993.439D Sprain of other ligament of ankle and foot level - subsequent encounter
993.4390 Sprain of other ligament of ankle and foot level - sequela
993.511A Strain of intrinsic muscle and tendon at ankle and foot level - initial encounter
993.511D Strain of intrinsic muscle and tendon at ankle and foot level - subsequent encounter
993.5110 Strain of intrinsic muscle and tendon at ankle and foot level - sequela
993.512A Strain of intrinsic muscle and tendon at ankle and foot level - unspecified side - initial encounter
993.512D Strain of intrinsic muscle and tendon at ankle and foot level - unspecified side - subsequent encounter
993.5120 Strain of intrinsic muscle and tendon at ankle and foot level - unspecified side - sequela
993.519A Strain of other muscles and tendons at ankle and foot level - initial encounter
993.519D Strain of other muscles and tendons at ankle and foot level - subsequent encounter
993.5190 Strain of other muscles and tendons at ankle and foot level - sequela
993.611A Strain of other muscles and tendons at ankle and foot level - initial encounter
993.611D Strain of other muscles and tendons at ankle and foot level - subsequent encounter
993.6110 Strain of other muscles and tendons at ankle and foot level - sequela
993.612A Strain of other muscles and tendons at ankle and foot level - unspecified side - initial encounter
993.612D Strain of other muscles and tendons at ankle and foot level - unspecified side - subsequent encounter
993.6120 Strain of other muscles and tendons at ankle and foot level - unspecified side - sequela
993.619A Strain of other muscles and tendons at ankle and foot level - unspecified side - initial encounter
993.619D Strain of other muscles and tendons at ankle and foot level - unspecified side - subsequent encounter
993.6190 Strain of other muscles and tendons at ankle and foot level - unspecified side - sequela

- 13% - complex, many to many, etc.

- 92% - Approximate/exact matches
- 8% - Complex, many to many, etc.

Who's Impacted BY ICD-10?

- Health plans will need to conduct an assessment, map codes, remediate systems, communicate with and educate & train providers and internal users, and test ICD-10 transactions with trading partners
- Modify internal business processes, update impacted documentation and web content
- Coordinate with other health plans to address industry concerns and simplification issues

- Employees will need to be trained on the use of the ICD-10 codes and address its impact on business policies & procedures
- Key staff will need to support the assessment, code mapping, and the overall implementation

- Providers will need to conduct an assessment, map codes, remediate systems and/or coordinate with vendors,
- Train physicians and staff ; modify business processes
- May need to renegotiate Hospital rates
- Modify policies and procedures
- Trading Partner Testing

- Sister agencies will need to conduct an assessment, map Codes, remediate systems, train staff
- Modify policies and procedures
- Trading partner testing
- DHCFP rates

- Vendors (SWV & BI) will need to upgrade applications and services to support ICD-10
- Trading partner testing
- MassHealth Vendors/contractors must comply with federal mandate

- Members will only be impacted if the mapped codes require a modification to the coverage plans

- All entities must Comply with CMS mandates
- Manage ICD-9 code freeze timelines & issuance of ICD-10 code releases
- Define penalties for non-compliance

- **Acquire Vendor:** MassHealth will acquire a vendor to provide the following implementation support:
 - Conduct Business Impact Assessment
 - Conduct IT Impact Assessment
 - Develop ICD-10 code maps
 - Project Management
 - Communication, education & training guidance and support
 - Testing guidance & support
- **Coordination & Communication:** MassHealth will coordinate & communicate with vendors, sister agencies, providers, and other stakeholders via:
 - Website
 - Messaging, provider bulletins, etc..
 - Meeting forums (vendor, sister agency, etc..)
 - Provider Associations & PAF
 - Other

- **MassHealth Implementation Status:**
 - Vendor selection - underway
 - Basic awareness communication – underway
- **Education and Training:** MassHealth will conduct provider education and training to support the implementation:
 - Education & Training approach – TBD
- **Testing:** MassHealth will conduct Trading Partner Testing to, at a minimum, ensure the following:
 - Budget Neutrality
 - Accurate file format and successful claims adjudication
 - Testing timeline – TBD
- **Timeline:**
 - MassHealth will develop the implementation timeline after vendor selection and assessment.
 - CMS should also develop and communicate a revised timeline

- **Delay DOES NOT = Postponement**
- MassHealth is moving forward with its implementation now
- Providers should immediately begin to:
 - Review CMS ICD-10 implementation resources at <http://cms.gov>
 - Evaluate impact of ICD-10 on your organization
 - Physician medical notes/records
 - Coding
 - IT impact
 - Business/Operational impact
 - Training
 - Testing & implementation
- Monitor MassHealth website at <http://mass.gov/masshealth/icd-10> (latest updates, key concepts, education & training materials)

Questions & Answers
