| Information is obtained from data entered in the MA DOC's Inmate Management System and is compiled by the Research and Planning Division.<br>*Demographics are reported for the total facility count; sentence information for criminally sentenced population only.<br>**Institution length of stay (LOS) is the number of days between January 1, 2015 and the most recent transfer date to the given facility or the most recent break in custody. Temporary visits to hospitals, courts or temporary holds are not considered a break in custody. On June 1, 2009 MCI-Cedar Junction became the reception center for sentenced inmates where they are housed temporarily prior to classification, affecting the average LOS. LOS is also skewed due to the housing of federal detainees as well as those housed in DDU and Permanent Workforce. |            |             |

| <b>Average Daily Pop 2014</b>  | 168        |             |
| Information is obtained from data entered in the MA DOC's Inmate Management System and is compiled by the Research and Planning Division.  |            |             |
| *Demographics are reported for the total facility count; sentence information for criminally sentenced population only.  |            |             |
| **Institution length of stay (LOS) is the number of days between January 1, 2015 and the most recent transfer date to the given facility or the most recent break in custody. Temporary visits to hospitals, courts or temporary holds are not considered a break in custody. The facility houses both those who are civilly committed under M.G.L. Chapter 123, Section 35 for a detoxification program for up to 90 days as well as those who are being held on "dual" status. The LOS for "dual" status is relatively low compared to straight Section 35's and thus skews the overall average for civil commitments. |            |             |
