- The official capacity or custody level designation for each facility can change for a number of reasons, e.g. expansion of facility beds, decrease of facility beds due to fire, or changes in contracts with vendors. In all tables the capacity and custody level reflects the status at the end of the reporting period. The design capacity is reported for correctional facilities in Tables 1 through 6.
- State inmates housed in the Hampshire County contract program are included in the county population tables, as are all other state inmates housed in county facilities.
- On May 18, 2000, the Braintree Alternative Center was closed for renovations by the Norfolk County Sheriff's Office. All inmates were transferred to the minimum security Pre-Release Center in Dedham.
- As of September 15, 2000, Longwood Treatment Center, male population, was moved to the Massachusetts Boot Camp and the women were transferred to facilities housing female populations.
- As of September 22, 2000, Massachusetts Boot Camp ceased to hold medium security inmates.
- Due to DOC policy modification, the security level of Boston State Pre-Release was changed from Security Level 2 to Security Level 3/2 during the fourth quarter of 2001.
- P.P.R.E.P was closed effective July 6, 2001.
- Charlotte House was closed effective November 9, 2001.
- Effective November 16, 2001, NCCI-Gardner added 30 beds to Security Level 3, per policy 101.
- As of April 5, 2002, Norfolk County no longer has any contract beds, all inmates are now held at the Norfolk County House of Correction.
- May 20, 2002, NECC changed from a Security Level 3 to Level 3/2. The design capacity for Security Level 3 is 62, and for Security Level 2 the design capacity is 88.
- May 20, 2002, Pondville changed from a Security Level 3 to Level 3/2 with a design capacity of 100.
- June 10, 2002, South Middlesex Correctional Center changed to a facility for female offenders.
- June 22, 2002, Old Colony Correctional Center added a Level 3 housing unit. The design capacity for Security Level 5 is 480 and for Security Level 3 the design capacity is 100.

- As of July 1, 2002, the Massachusetts Boot Camp was renamed the Massachusetts Alcohol and Substance Abuse Center (MASAC). Within MASAC is the Longwood Treatment Center Program, relocated on September 15, 2000. This program served individuals incarcerated for operating under the influence of alcohol. Because the inmates were predominantly county sentenced inmates, the inmate count and bed capacity were also included in Tables 3 and 4.
- The Massachusetts Treatment Center (MTC) houses both civil and criminal populations.
- As of July 1, 2002, two housing units remain open at MCI-Shirley Minimum with a design capacity of 92.
- In August 2002, the David R. Nelson Correctional Addiction Center (DRNCAC) was closed and all inmates were integrated into Bristol Dartmouth House of Correction.
- Within MASAC, The Longwood Treatment Center Program was terminated on July 1, 2003. The last inmate to leave the facility was on September 8, 2003.
- Prior to the 3rd Quarter 2003, NCCI-Gardner (Minimum) was inadvertently shown as Security Level 3/2 instead of Security Level 3.

- Houston House program will be known as Women and Children's Program (WCP), effective July 12, 2004.
- Within MCI-Shirley is a 13 bed unit called the Assisted Daily Living Unit, this unit opened on February 22, 2005. The unit houses inmates who require assistance with activities of daily living (e.g., hygiene, eating, ambulating, etc.), but whose regular medical needs are treated on an outpatient basis.
- On September 12, 2005 OCCC designated a Special Housing Unit (SHU) to hold Security Level 4 inmates.
- Barnstable County House of Correction design capacity has changed. The new design capacity is 300, effective as of March 13, 2006.
- The Lemuel Shattuck Correctional (LEM) unit census was added to the first quarter 2006 report.
- Effective October 19, 2006 the count sheet was changed to reflect the Institution Security Level changes per the CMR 103 DOC 101 Policy.
- Memorandum of Agreement for 380 beds at Plymouth County Correctional Facility including, 52A's, Non-52A's, DYS, and other county.
- September 24, 2007 – To reflect recent information that has come to light, Bristol County Dartmouth and Essex County Middleton facilities each include a pre-release women's facility which will be reported separately in future reports.
- On October 1, 2007 the Western MA Regional Women's Correctional Center opened in Chicopee MA (Hampden County). The design capacity is 228.
- The design capacity for Shirley Minimum has changed due to the reopening of additional housing units:
 - Effective October 15, 2007 – 92 to 165
 - Effective February 27, 2008 – 165 to 161, due to the reassessment of space

 - Effective November 5, 2008 – 193 to 249.
 - Effective May 6, 2010 – a new modular unit at Shirley Minimum opened with a rated capacity of 50, changing design/rated capacity from 249 to 299.
- On June 13, 2008 South Middlesex Correctional Center began housing awaiting trial inmates.

- In February 2009, the Assisted Daily Living Unit at MCI-Norfolk opened. The unit houses inmates who require assistance with activities of daily living (e.g., hygiene, eating, ambulating, etc.), but whose regular medical needs are treated on an outpatient basis.
- The data now identifies that the DOC is reporting design/rated capacity. The MGL statute requires that the DOC report on rated capacity. While there is no numerical difference between design capacity and rated capacity, the DOC wanted to make sure the data is accurately and appropriately labeled.
- Effective April 13, 2009, the security level for the MASAC facility has changed from a Medium to Minimum security. In addition to continuing to house 30-day substance abuse civil commitments under MGL Ch.123 s.35, the facility will house inmates serving criminal sentences.

- Due to overcrowding, MCI-Cedar Junction began double-bunking maximum security housing units 2 and 3 on March 17, 2011, and the Orientation Unit on March 29, 2011.
- Average Daily Population for the previous year was calculated by using the last day of each month.
- The ATU (Awaiting Trial Unit) house both pre-trial and civilly committed females. The facility population count provided includes all pre-trial and civil females, some of whom might be housed elsewhere within MCI-Framingham than the actual ATU.
- Average Daily Population for county facilities was calculated by using the last week of every month (based on the day of the week in which it was provided).
- Custody snapshot data is based on an end of the month count. Prior to 4th quarter 2011, custody snapshot data was taken based on the first of the month.
- A new county facility for females was opened in Hampden County in November 2011, now taking most females from the western half of the state.

Definitions:

Custody Population: Custody population refers to all offenders held in DOC facilities only, and does not include DOC inmates serving time in correctional facilities outside of the DOC (e.g., Massachusetts county Houses of Correction, other states' correctional facilities, and the Federal Bureau of Prisons).

Jurisdiction Population: Jurisdiction population refers to all offenders incarcerated in DOC facilities as well as DOC inmates serving time in correctional facilities outside of the DOC (e.g., Massachusetts county Houses of Correction, other states' correctional facilities, and the Federal Bureau of Prisons).

Design/Rated Capacity: The number of inmates that planners or architects intended for the institution [as defined by the U.S. Department of Justice, Bureau of Justice Statistics (BJS)]. Rated capacity is the number of beds or inmates assigned by a rating official to institutions within the jurisdiction, essentially formally updated from the original design capacity.

In May 2012, new security level designations were established according to **103 DOC 101 Correctional Institutions/Security Levels** policy which states:

Security Levels:

Pre-Release/Contracted Residential Placement – The perimeter is marked by non-secure boundaries. Physical barriers to inmate movement and interaction are either non-secure or non-existent. Inmate movements and interactions are controlled by rules and regulations only. Inmates may leave the institution daily for work and/or education in the community. Supervision while on the grounds of the facility is intermittent. While in the community, supervision is occasional, although indirect supervision (e.g. contact with employer) may be more frequent. Inmates must be within eighteen (18) months of parole eligibility or release and not barred by sentencing restrictions for either placement in a pre release facility or participation in work, education or program related activities (PRA) release programs.

Minimum – The perimeter is marked by non-secure boundaries. Physical barriers to movement and interaction are either non-secure or non-existent. Inmates may be housed in single, double or multiple occupancy areas. Inmate movements and interactions are controlled by rules and regulations only. Supervision is intermittent. Inmates may leave the perimeter under supervision. Contact visits and personal clothing are allowed.

Medium – The perimeter and physical barriers to control inmate movement and interaction are present. Inmates may be housed in single, double or multiple occupancy areas. Inmate movement and interaction are generally controlled by rules and regulations, as well as with physical barriers. Inmates are subject to direct supervision by staff. Work and program opportunities are available. Contact visits and personal clothing may be allowed. Inmates assigned to medium custody designation at MCI-Cedar Junction will receive contact visits.

Maximum – The perimeter is designed and staffed to prevent escapes and the introduction of contraband. Inmate movement and interaction are controlled by physical barriers. Inmates are housed in single and double cells. The design of the facility offers an ability to house some offenders separate from others without a limitation of work and/or program opportunities. Inmates are subject to direct supervision by staff. At the superintendent's discretion, contact visits may be allowed at Souza Baranowski Correctional Center and MCI Cedar Junction's reception beds (which are considered maximum security). Personal clothing is generally not allowed.

Table 1 provides the DOC figures for the fourth quarter of 2014. The DOC custody population has decreased by 19 inmates, or less than one percent in this time period. Operating with 10,447 inmates in the system, the average daily population was 10,462 with a design capacity of 8,029. Thus, the DOC operated at 130% of design capacity compared to 133% during the fourth quarter of 2013.

DOC inmates housed in non-DOC facilities had an average daily population of 374 inmates. The majority of these inmates were in Massachusetts Houses of Correction.

Overall, the average daily total DOC jurisdiction population for the fourth quarter 2014 was 10,836. There was a decrease of 33 inmates, or less than one percent, over the quarter from 10,846 to 10,813.

Figure 2
MA County Correctional Facilities by County, Fourth Quarter 2014 Population Change

- ◆ Most county correctional institutions have jail beds (to hold prisoners awaiting trial) and house of correction beds (designated for sentenced inmates), with the exception of Suffolk County, which houses these populations in separate facilities. The design capacities are determined within each facility and separate capacities are not designated as “jail” (detainees) or “house of correction” (county sentenced) beds.
- ◆ In the fourth quarter of 2014, the county correctional system operated at 128% of its design capacity, with an average daily population of 11,093 and a capacity designed to hold 8,633 inmates.
- ◆ Hampshire and Franklin Counties were the only counties to report percentage increases, 2% each for the fourth quarter. The Hampshire County population increased by 5 inmates from 277 inmates at the beginning of the quarter to 282 inmates at the end of the quarter. Franklin County’s population increased by 5 inmates from 251 inmates at the beginning of the quarter to 256 inmates at the end of the quarter.
- ◆ Suffolk County had the largest percentage decrease in population, 12% from the beginning of the third quarter to the end of the quarter. It also reflected the largest total decrease in population, a decrease of 212 inmates.
- ◆ The county correctional facilities’ (jails and houses of correction) population decreased by 891 inmates, or eight percent, for the fourth quarter of 2014, from 11,448 at the beginning of the quarter to 10,557 at the end of the quarter.

Table 5 presents the county figures for the previous twelve months (October 28, 2013 to September 29, 2014). The numbers indicate that the county population decreased by 474 inmates over this twelve-month period, or four percent, from 11,787 in October 2013 to 11,313 in September 2014.
