pg\_\_\_\_\_ **Group Health Care Insurers.** According to 940 CMR 9.04, it shall be considered an unfair and deceptive act or practice in violation of M.G.L. c. 93A, § 2, for a carrier to deny a member's claim for covered health care services on the grounds that, prior to the date covered health care services were received, the employer's plan has been terminated for nonpayment of premiums, unless the carrier has sent written notice of the termination to the member prior to the date the covered health care services were received in the manner set forth in 940 CMR 9.05.

After the member has been stabilized for discharge or transfer, the health maintenance organization or its designee may require a hospital emergency department to contact the physician on-call designated by the health maintenance organization or its designee for authorization of post-stabilization services to be provided. The hospital emergency department shall take all reasonable steps to initiate contact with the health maintenance organization or its designee within 30 minutes of stabilization. Such authorization shall be deemed granted if the health maintenance organization or its designee has not responded to said call within 30 minutes...in the event the attending physician and said on-call physician do not agree on what constitutes appropriate medical treatment, the opinion of the attending physician shall prevail and such treatment shall be considered appropriate treatment for an emergency medical condition provided that such treatment is consistent with generally accepted principles of professional medical practice and a covered benefit under the member's evidence of coverage.” (See also Bulletin No. 00-14)

pg\_\_\_\_\_ According to M.G.L. c. 176G, § 5(c), “[a] health maintenance organization may require a member to contact either the health maintenance organization or its designee or the primary care provider of the member within 48 hours of receiving such emergency services, but notification already given to the health maintenance organization or to said primary care provider by the attending physician shall satisfy the requirements of this paragraph.”

pg\_\_\_\_\_ According to M.G.L. c. 176G, § 5(e), “[a] health maintenance organization shall clearly state in its brochures, contracts, policy manuals and printed materials that members shall have the option of calling the local pre-hospital emergency medical service system by dialing the emergency telephone access number 911, or its local equivalent, whenever an enrollee is confronted with an emergency medical condition which in the judgment of a prudent layperson would require pre-hospital emergency services. No member shall in any way be discouraged from using the local pre-hospital emergency medical service system, the 911 telephone number, or the local equivalent, or be denied coverage for medical and transportation expenses incurred as a result of an emergency medical condition.”

### **Mental Health Parity**

According to M.G.L. c. 176G, § 4M(a), “[a]A health maintenance contract issued or renewed within or without the commonwealth shall provide mental health benefits on a nondiscriminatory basis to residents of the commonwealth and to all members or enrollees having a principal place of employment in the commonwealth for the diagnosis and treatment of the following biologically-based mental disorders, as described in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association, referred to in this section as the DSM:

A health maintenance contract issued or renewed within or without the commonwealth shall provide mental health benefits on a nondiscriminatory basis to residents of the commonwealth and to all members or enrollees having a principal place of employment in the commonwealth for the diagnosis and medically necessary and active treatment of any mental disorder, as described in the most recent edition of the DSM, that is approved by the commissioner of mental health.

pg \_\_\_\_\_ **Children and Adolescents under the age of 19.** According to M.G.L. c. 176G, § 4M(c), “any such health maintenance contract shall also provide benefits on a non-discriminatory basis to children and adolescents under the age of 19 for the diagnosis and treatment of non-biologically-based mental, behavioral or emotional disorders, as described in the most recent edition of the DSM, which substantially interfere with or substantially limit the functioning and social interactions of such a child or adolescent; provided, that said interference or limitation is documented by and the referral for said diagnosis and treatment is made by the primary care provider, primary pediatrician or a licensed mental health professional of such a child or adolescent or is evidenced by conduct, including, but not limited to: (1) an inability to attend school as a result of such a disorder, (2) the need to hospitalize the child or adolescent as a result of such a disorder, (3) a pattern of conduct or behavior caused by such a disorder which poses a serious danger to self or others. The health maintenance organization shall continue to provide such benefits to any adolescent who is engaged in an ongoing course of treatment beyond the adolescent's nineteenth birthday until said course of treatment, as specified in said adolescent's treatment plan, is completed and while the benefit contract under which such benefits first became available remains in effect, or subject to a subsequent benefits contract which is in effect.”

**Nondiscriminatory basis** - means that copayments, coinsurance, deductibles, unit of service limits (e.g., hospital days, outpatient visits), and/or annual or lifetime maximums are not greater for mental disorders than those required for physical conditions, and office visit copayments are not greater than those required for primary care visits. [refer to Bulletin 2009-04]

**Please confirm that all plan designs conform to the above-note Nondiscriminatory requirement.**

pg \_\_\_\_\_ **All Other Mental Disorders.** According to M.G.L. c. 176G, § 4M(e), “[a]ny such health maintenance contract shall also provide benefits for the diagnosis and treatment of all other mental disorders not otherwise provided for in this section and which are described in the most recent edition of the DSM

Carriers may continue, however, to review the medical necessity of treatments and coordinate care in the least restrictive, clinically appropriate setting, provided that the reviews are consistent with state and federal requirements.

pg\_\_\_\_ **Psychopharmacological Services and Neuropsychological Assessment Services.** According to M.G.L. c. 176G, § 4M(i), “psychopharmacological services and neuropsychological assessment services shall be treated as a medical benefit and shall be covered in a manner identical to all other medical services.”

**LICENSED MENTAL HEALTH PROFESSIONALS**

*[M.G.L. c. 175, § 47B(i) (or M.G.L. c. 176A, § 8A(i) or M.G.L. c. 176B, § 4A(i)) -]*

**Where Services may be Provided.** According to M.G.L. c. 176G, § 4M(g), “[b]enefits authorized pursuant to this section shall consist of a range of inpatient, intermediate, and outpatient services that shall permit medically necessary and active and noncustodial treatment for said mental disorders to take place in the least restrictive clinically appropriate setting. **INTERMEDIATE SERVICES**

As stated in Bulletin No. 09-11, please include a provision that clearly notes the following: -

“Intermediate Services” - “[a] range of non-inpatient services that provide more intensive and extensive treatment interventions when outpatient services alone are not sufficient to meet the patient’s needs. Intermediate Services, include, but are not limited to, the following:

- pg\_\_\_\_ Acute and other residential treatment;
- pg\_\_\_\_ Partial hospitalization;
- pg\_\_\_\_ Day treatment;
- pg\_\_\_\_ In-home therapy services;
- pg\_\_\_\_ Clinically managed detoxification services;
- pg\_\_\_\_ Intensive Outpatient Programs (IOP); and
- pg\_\_\_\_ Crisis stabilization.

**Level of Benefits for Intermediate Care Services**

The duration of intermediate care services authorized for any particular individual will vary according to that person’s individual needs. Because Chapter 80 of the Acts of 2000 and Chapter

256 of the Acts of 2008 do not specify a minimum benefit for intermediate care, authorizations for intermediate care should be based on medical necessity rather than any arbitrary number of days or number of visits..

**Please confirm that the carrier complies with this requirement and highlight the page number where the carrier includes a provision that clearly states this information.**

**OUTPATIENT SERVICES**

“[m]ay be provided in:

- (See also Bulletin No. 03-11)”

**Disclosure.** According to M.G.L. c. 176G, § 4M(h), “[n]o health maintenance organization shall require as a condition to receiving benefits mandated by this section consent to the disclosure of information regarding services for mental disorders under different terms and conditions than consent is required for disclosure of information for other medical conditions. A determination by a health maintenance organization that services authorized pursuant to this section are not medically necessary shall only be made by a licensed mental health professional; provided, that this provision shall not be construed as applying to denials of service resulting from an insured's lack of insurance coverage or use of a facility or professional which has not entered into a negotiated agreement with the health maintenance organization. The benefits provided in any health maintenance contract pursuant to this section shall meet all other terms and conditions of the health maintenance contract not inconsistent with this section.”

**Please confirm that the carrier complies with this requirement.**

**Bulletin 2015-05; Access to Services to Treat Substance Use Disorders; Issued July 31, 2015**

pg\_\_\_\_\_ Chapter 258 requires insured health plans<sup>(1)</sup> offered under M.G.L. chapters 175, 176A, 176B, and 176G (hereinafter referred to as an insured health plan) that are issued, delivered or renewed within the commonwealth and considered creditable coverage under section 1 of chapter 111M to provide coverage for medically necessary acute treatment services and medically necessary clinical stabilization services for at least 14 consecutive days. Medical necessity is to be determined by the treating clinician in consultation with the patient.

pg\_\_\_\_\_ Insured health plans shall cover and shall not require preauthorization for the 14-day period of medically necessary acute treatment and clinical stabilization services (American Society of Addiction Medicine Levels 4, 3.7 and 3.5) for an insured obtaining acute treatment services or clinical stabilization services; as long as the facility providing the noted services provides the carrier with appropriate notification of the admission within 48 hours of admission. Carriers shall not require that any facility provide notification beyond the name of the patient, information regarding the patient's coverage with the carrier's plan and the initial treatment plan that has been developed for the patient.

pg\_\_\_\_\_ Carriers may initiate utilization review procedures on the 7<sup>th</sup> day of a patient's stay for acute treatment services or the 7<sup>th</sup> day of a patient's stay for clinical stabilization services, including but not limited to discussions about coordination of care and discussions of treatment plans, but a carrier may not make any utilization review decisions that impose any restriction or deny any future medically necessary acute treatment or clinical stabilization services unless a patient has received at least 14 consecutive days of acute treatment and/or clinical stabilization services. Any such decisions must follow the requirements of M.G.L. c. 176O regarding the transmission of adverse determination notifications to patients and clinicians and processes for internal and external appeals of carrier decisions.

pg\_\_\_\_\_ For plans that provide or arrange for the delivery of care through a closed network of health care providers, acute treatment service and clinical stabilization services delivered by providers who are not part of an insured health plan's closed network of providers are subject to prior authorization procedures unless the health plan's provider network is found to be inadequate to provide access to acute treatment or clinical stabilization services for plan members.

pg\_\_\_\_\_ **Preauthorization Protocols for All Other Substance Use Disorder Services**

Insured health plans issued, delivered or renewed within the Commonwealth, which are considered creditable coverage under section 1 of chapter 111M, shall not require a member or treating clinician to obtain a preauthorization for covered substance use disorder treatment services if the provider is certified or licensed by the Department of Public Health (DPH). Substance use disorder treatment services include early intervention services for substance use disorder treatment, outpatient services, including medically assisted therapies, intensive outpatient and partial hospitalization services, residential or inpatient services, and medically intensive inpatient services. The term provider includes facilities as well as individual practitioners certified or licensed by the DPH.

pg\_\_\_\_\_ If a service is not covered by an insured health plan, a carrier should take all appropriate steps to notify relevant contracting providers and identify that a substance use disorder service is not covered within the insured health plan's benefits.

Identify the system that the carrier has in place to comply with the above.

**Bulletin 2016-01; Federal Requirement that Carriers Cover Certain Tobacco Cessation Products Without Consumer Cost Sharing - Tobacco Cessation Products**

pg\_\_\_\_\_ The ACA requires coverage, with no cost-sharing, for certain evidence-based preventive items and services given a rating of “A” or “B” by the U.S. Preventive Services Task Force (“USPSTF”).

pg\_\_\_\_\_ The USPSTF indicate that clinicians should screen all adults for tobacco use and provide tobacco cessation interventions for those who use tobacco.

pg\_\_\_\_\_ Screening and tobacco interventions are required to be covered without cost-sharing and that plan benefits should not include any blanket benefit exclusions or limitations that apply to tobacco cessation items or services.

**Tobacco Cessation Products**

HHS has issued guidance that identifies the following types of tobacco cessation products as items that it believes are appropriate for smoking cessation:

- pg\_\_\_\_\_ Nicotine gum,
- pg\_\_\_\_\_ Nicotine patch,
- pg\_\_\_\_\_ Nicotine lozenge,
- pg\_\_\_\_\_ Nicotine oral or nasal spray,
- pg\_\_\_\_\_ Nicotine inhaler,
- pg\_\_\_\_\_ Bupropion, and
- pg\_\_\_\_\_ Varenicline

The Division would consider a health plan to be in compliance with the preventive care requirements of the ACA relative to tobacco cessation products if the health plan’s drug benefit includes at least one product within each of the above-noted tobacco cessation product types without cost-sharing (e.g., the health plan’s drug benefit includes coverage, without cost sharing,

for at least one nicotine gum, one nicotine patch, one nicotine lozenge, etc.). Coverage requirements pertain to both over-the-counter and prescription products.

pg\_\_\_\_\_ Covered persons should be “[g]iven access to at least one of the tobacco cessation products without prior authorization and the managed care methods are consistent with all state and federal laws. Whenever carriers make an adverse determination that denies or limits access to a requested product based on medical necessity criteria, they must provide all necessary notifications to patients and providers and follow all appropriate procedures for internal and external appeals.

## **Bulletin 2016-05; Federal Requirement that Carriers Cover Certain Lactation Services Without Any Consumer Cost-Sharing**

### **Federal Rules for Preventive Health Care Services**

pg\_\_\_\_\_ “Section 2713 of the Public Health Service Act, as amended by the ACA...[r]equire that non-grandfathered insured health plans in the individual and group markets provide benefits, without cost-sharing (*i.e.*, copayments, coinsurance or deductibles) for certain preventive items and services listed in the current recommendations of the United States Preventive Services Task Force, the Centers for Disease Control and Prevention’s Advisory Committee on Immunization Practices, and in specific guidelines supported by the Health Resources and Services Administration (“HRSA”).”

### **pg\_\_\_\_\_ Coverage for Lactation Support and Counseling (*or* Lactation Services)**

“[s]pecific guidelines associated with lactation support, supplies and counseling. Carriers must cover comprehensive prenatal and postnatal lactation support, counseling and equipment purchase and/or rental as preventive care services, but may use reasonable medical management techniques to control costs and promote efficient delivery of care.”

In accordance with 45 CFR §147.130(a)(2), if a lactation item or service is not billed separately (or is not tracked as individual encounter data separately) from an office visit and the primary purpose of the office visit is the delivery of such lactation item or service, then a Carrier *may not* impose cost-sharing requirements with respect to the office visit. If a lactation item or service is not billed separately (or is not traced as individual encounter data separately) from an office visit and the primary purpose of the office visit is not the delivery of the lactation item or service, then a Carrier *may* impose cost-sharing requirements with respect to the office visit.

pg\_\_\_\_\_ In FAQ Part XXIX, the Departments clarify that coverage for comprehensive prenatal and postnatal lactation support, supplies, and counseling includes lactation counseling as long as the service is performed by a provider acting within the scope of his or her license or certification under applicable state law. Carriers may limit coverage without cost-sharing to a network of providers. However, if a Carrier does not have providers in its network who can provide lactation counseling services, then the Carrier must cover the items or service when performed by an out-of-network provider and not impose cost-sharing with respect to the lactation items or services. Moreover, coverage for lactation support services and items without cost-sharing must extend for the duration of the breastfeeding, and it may not be limited to services provided on an in-patient basis.

pg\_\_\_\_\_ According to FAQ Part XXIX, Carriers must provide information to covered persons about lactation counseling providers available under the Carriers’ plans. In order to update their managed care accreditation files, Carriers will need to submit information to the Division that identifies the lactation counseling providers within their networks or that explains that services

provided for lactation counseling will be covered by non-network providers without cost-sharing until a Carrier has established contracts to include an adequate number of lactation counseling providers within its networks.

Filings for insured health benefit plans utilizing the Massachusetts Essential Health Benefits Benchmark Plan that are intended to be offered on and after January 1, 2017 should be consistent with the provisions of 45 CFR 156.115(a)(5)(i) – (iii), including the following:

pg \_\_\_\_\_

- benefits for habilitative services and devices are to include health care services and devices that help a person keep, learn, or improve skills and functioning for daily living and may include, for example, therapy for a child who is not walking or talking at the expected age, as well as physical and occupational therapy, speech-language pathology and other services for persons with disabilities in a variety of inpatient and/or outpatient settings;

pg \_\_\_\_\_

- there are not any combined limits on habilitative and rehabilitative services and devices.

pg \_\_\_\_\_

In addition, the Division would not consider any plan provisions to be appropriate that:

- discriminate based on an individual's age, expected length of life, present or predicted disability, degree of medical dependency, quality of life, or other health conditions; or

pg \_\_\_\_\_

- apply annual or lifetime dollar limits to any habilitative and rehabilitative services and devices. (Annual or lifetime limits may be converted to actuarially equivalent treatment or service limitations.)”

Information contained in the documents furnished in an internet website shall include the effective date and the published date of any updates, modifications or material changes.

pg\_\_\_\_\_ 4. The carrier updates the website as soon as practicable.

pg\_\_\_\_\_ 5. In the case of a group policy, the carrier delivers a paper copy of the provider directory to the group representative.

pg\_\_\_\_\_ 6. The carrier has taken reasonable measures to ensure that it furnishes, upon request of the insured, a paper copy of the provider directory.

**Please confirm that the carrier complies with items 3 through 6.**

---

**1) Forward sample copy(ies) of the notice(s) highlighting the requirements noted within 211 CMR 52.15(d)(1)(a-d).**

**2) Forward sample copy(ies) of the website address(es) and documents appearing on its website(s) highlighting the provisions that are substantially the same as those required in its paper documents.**

According to 211 CMR 52.15(2), “[a] carrier shall not be required to deliver a provider directory upon enrollment if a provider directory is delivered to the prospective or current insured, or in the case of a group policy, to the group representative, during applicable open enrollment periods.

**Please explain how the carrier complies with this requirement.**

According to 211 CMR 52.15(3) “[i]f delivering a paper copy of the provider directory, a carrier shall be deemed to have met the requirements of 211 CMR 52.15(1) if the carrier:

pg\_\_\_\_\_ (a) provides to at least one adult insured in each household, or in the case of a group policy, to the group representative, at least once per calendar year an addendum, insert, or other update to the provider directory originally provided under 211 CMR 52.15(1); and

pg\_\_\_\_\_ (b) updates its toll-free number within 48 hours and internet website as soon as practicable.

pg\_\_\_\_\_ According to 211 CMR 52.15(4), “[e]very provider directory described in 211 CMR 52.15 must contain the effective date, date of issue and expiration date if applicable.

Early in 2002, the Division became aware that certain providers in the Massachusetts market intended to modify their practices in April 2002 by charging an annual fee to members as a condition to continue to be part of the providers’ panel of patients. The Division was formally requested by certain carriers to opine as to whether carriers would be permitted to continue to include providers within their managed care networks if those providers required such fees as a condition for treatment. As is noted in a letter dated March 6, 2002 to Tufts Health Plan, the Division’s General Counsel indicated that it does not believe that the providers’ annual fee proposal “violates the current statutory and regulatory framework governing contracts between carriers and providers.” The Division’s General Counsel’s letter of March 6, 2002 instructs all carriers to:

- pg\_\_\_\_\_ 1) confirm that the carrier monitors its network of providers;
- pg\_\_\_\_\_ 2) confirm whether the carrier’s network includes network providers that require patients to pay an annual fee as a condition for inclusion within that provider’s panel of patients
- pg\_\_\_\_\_ 3) if the network includes such providers, confirm that the carrier has amended its provider directory(ies) to clearly identify those providers that will be unavailable to its members who do not or cannot pay the annual fee to be part of the providers’ panel and highlight the page(s) that such information may be located within the directory(ies);”
- pg\_\_\_\_\_ 4) Include with the filing a document that lists those contracted providers that charge an annual fee to members as a condition to continue to be a part of the providers’ panel of patients.
- pg\_\_\_\_\_ 5) Confirm that the carrier will continue to monitor its network and will advise the Division as necessary regarding contracted providers that charge an annual fee as described above.

**Please include a statement within the filing that addresses each noted item above to consider the filing complete.**

As noted in Bulletin No. 02-07, in meeting the provisions of Chapter 80 of the Acts of 2000 (“Chapter 80”), carriers are to provide or arrange for the “full range of mandated services, including specific treatment modalities appropriate for all ages of patients and all types of covered mental conditions.” In addition, it is noted that carriers are to have “sufficient numbers of providers available in the network so that no patient must wait a medically inappropriate amount of time to receive care for acute conditions” and that “care is being delivered promptly and appropriately and that insureds are being provided adequate access as required by law.” In order to satisfy the provisions of Chapter 80 and Bulletin No. 02-07, it would appear that provider directories should include lists that address at least the following types of behavioral health providers:

- pg\_\_\_\_\_ (a) general behavioral health providers;
- pg\_\_\_\_\_ (b) child/pediatric and adolescent behavioral health providers;
- pg\_\_\_\_\_ (c) geriatric behavioral health providers;
- pg\_\_\_\_\_ (d) substance abuse providers or addictionologists; and
- pg\_\_\_\_\_ (e) eating disorder specialists.

**Please make sure to note the page numbers where the above-noted providers are listed within the provider directory.**

pg\_\_\_\_\_ According to Chapter 80, carriers are required to provide or arrange for “a range of inpatient, intermediate, and outpatient services that shall permit medically necessary and active and noncustodial treatment for said mental disorders to take place in the least restrictive clinically appropriate setting . . . inpatient services may be provided in a general hospital licensed to provide such services, in a facility under the direction and supervision of the department of mental health, in a private mental hospital licensed by the department of mental health, or in a substance abuse facility licensed by the department of public health. Intermediate services shall include, but not be limited to, Level III community-based detoxification, acute residential treatment, partial hospitalization, day treatment and crisis stabilization licensed or approved by the department of public health or the department of mental health. Outpatient services may be provided in a licensed hospital, a mental health or substance abuse clinic licensed by the department of public health, a public community mental health center, or a professional office, or through home-based services, provided, however, services delivered in such offices or

settings are rendered by a licensed mental health professional acting within the scope of his [or her] license.”

pg\_\_\_\_ Consistent with the requirements of 211 CMR 52.15(1)(a), indicate next to each provider in the directory their professional licensure designation(s) and clarify with footnotes or other prominent notes whether providers are or are not taking new patients and if they only see patients in certain settings (for example, in an inpatient or intermediate care setting).

**MATERIAL TO BE PROVIDED TO THE OFFICE OF PATIENT PROTECTION - [211 CMR 52.16]**

A carrier shall provide the following to the Office of Patient Protection at the same time the carrier provides such material to the Bureau of Managed Care [211 CMR 52.16(1)]:

- pg\_\_\_\_ (a) A copy of every evidence of coverage and amendments thereto offered by the carrier.
- pg\_\_\_\_ (b) A copy of the provider directory described in 211 CMR 52.15.
- pg\_\_\_\_ (c) A copy of the materials specified in 211 CMR 52.14.

According to 211 CMR 52.16(2), “[a] carrier shall provide the following to the Office of Patient Protection by no later than April 1:

- pg\_\_\_\_ (a) A list of sources of independently published information assessing insured satisfaction and evaluating the quality of health care services offered by the carrier.
- pg\_\_\_\_ (b) A report of the percentage of physicians and nurse practitioners who voluntarily and involuntarily terminated participation contracts with the carrier during the previous calendar year for which such data has been compiled and the three most common reasons for voluntary and involuntary physician disenrollment;
  - pg\_\_\_\_ (1) For the purposes of 211 CMR 52.16(5) carriers shall exclude physicians and nurse practitioners who have moved from one physician group to another but are still under contract with the carrier.
  - pg\_\_\_\_ (2) For the purposes of 211 CMR 52.16(5) “voluntarily terminated” means that the physician or nurse practitioner terminated its contract with the carrier.
  - pg\_\_\_\_ (3) For the purposes of 211 CMR 52.16(5) “involuntarily terminated” means that the carrier terminated its contract with the physician or nurse practitioner.
- pg\_\_\_\_ (c) The percentage of premium revenue expended by the carrier for health care services provided to insureds for the most recent year for which information is available; and
- pg\_\_\_\_ (d) A report detailing, for the previous calendar year, the total number of
  - pg\_\_\_\_ (1) filed grievances, grievances that were approved internally, grievances that were denied internally, and grievances that were withdrawn before resolution; and
  - pg\_\_\_\_ (2) external appeals pursued after exhausting the internal grievance process and the resolution of all such external appeals. The report shall identify for each such category, to the extent such information is available, the demographics of such insureds, which shall include, but need not be limited to, race, gender and age.

**Please confirm the carrier complies with the above-noted requirements.**

pg\_\_\_\_\_ Every carrier shall make available to every eligible individual and every small business, including an eligible small group or eligible individual a certificate that evidences coverage under a policy or contract issued or renewed to a trust, association or other entity that is not a group health plan, as well as to their eligible dependents, every health benefit plan that it provides to any other eligible individual or eligible small business. No health plan may be offered to an eligible individual or an eligible small business unless it complies with this chapter. Upon the request of an eligible small business or an eligible individual, a carrier must provide that group or individual with a price for every health benefit plan that it provides to any eligible small business or eligible individual. Except under the conditions set forth in paragraph (3) of subsection (a) and paragraph (2) of subsection (b), every carrier shall enroll any eligible small business or eligible individual which seeks to enroll in a health benefit plan. Every carrier shall permit every eligible small business group to enroll all eligible persons and all eligible dependents; provided that the commissioner shall promulgate regulations which limit the circumstances under which coverage must be made available to an eligible employee who seeks to enroll in a health benefit plan significantly later than he was initially eligible to enroll in a group plan. [M.G.L. c. 176J §4(a)(1)]

pg\_\_\_\_\_ A carrier shall enroll eligible individuals, as defined by section 1, and eligible individuals, as defined in section 2741 of the Health Insurance Portability and Accountability Act of 1996, 42 U.S.C. section 300gg-41(b), into a health plan if those individuals request coverage within 63 days of termination of any prior creditable coverage. A carrier shall also enroll eligible individuals, as permitted under the Patient Protection and Affordable Care Act, Public Law 111-148, and any rules, regulations and guidances applicable thereto, as amended from time to time. A carrier shall enable any such eligible individual to renew coverage if that coverage is available to other eligible individuals. Coverage shall become effective in accordance with said Patient Protection and Affordable Care Act, and any rules, regulations and guidances applicable thereto, as amended from time to time, subject to reasonable verification of eligibility, and shall be effective through December 31 of that same year. Carriers shall notify any such eligible individuals that:

pg\_\_\_\_\_ (ii) if any such eligible individual is in a health plan with a plan-year deductible or out-of-pocket maximum, an explanation of how that deductible or out-of-pocket maximum and premiums will be impacted for the period between the plan effective date and December 31 of the enrollment year; and

pg\_\_\_\_\_ (iii) the next open enrollment period during which any such eligible individual shall have the opportunity to enroll in a health plan that will begin on January 1 of the following calendar year.

pg\_\_\_\_\_ A carrier shall not impose a pre-existing condition exclusion or waiting period of any duration on a health plan.. [M.G.L. c. 176J §4(a)(2); see also Section 49 of Chapter 35 of the Acts of 2013]

pg\_\_\_\_\_ A carrier shall enroll an eligible individual who does not meet the requirements of paragraph (2) into a health benefit plan during the mandatory open enrollment period for eligible individuals and the eligible dependents of those individuals. Each year, the open enrollment period shall begin on July 1 and end on August 15. All coverage shall become effective on the first day of the month following enrollment. [M.G.L. c. 176J §4(a)(3)]

pg\_\_\_\_\_ No policy may require any waiting period if the eligible individual has not had any creditable coverage for the 18 months prior to the effective date of coverage. [M.G.L. c. 176J §4(a)(4)]

pg\_\_\_\_\_ Notwithstanding any other provision in this section, a carrier may deny an eligible individual or eligible small group enrollment in a health benefit plan if the carrier certifies to the commissioner that the carrier intends to discontinue selling that health benefit plan to new eligible individuals or eligible small businesses. A health benefit plan closed to new members may be cancelled and discontinued to all members upon the approval of the commissioner of insurance when such plan has been closed to enrollment for new individuals and small groups and the carrier has complied with the requirements of 42 U.S.C. Sec. 300gg-12; provided, however, that cancellation of the plan shall be effective on the individual or small group's next enrollment anniversary after such cancellation is approved by the commissioner of insurance. The commissioner may promulgate regulations prohibiting a carrier from using this paragraph to circumvent the intent of this chapter. [M.G.L. c. 176J §4(b)(1)]

pg\_\_\_\_\_ A carrier shall not be required to issue a health benefit plan to an eligible individual or eligible small business if the carrier can demonstrate to the satisfaction of the commissioner that within the prior 12 months, (a) the eligible individual or eligible small business has repeatedly failed to pay on a timely basis the required health premiums; or, (b) the eligible individual or eligible small business has committed fraud, misrepresented whether or not a person is an eligible individual or eligible employee, or misrepresented other information necessary to determine the size of a group, the participation rate of a group, or the premium rate for a group; or (c) the eligible individual or eligible small business has failed to comply in a material manner with a health benefit plan provision, including for an eligible small business, compliance with carrier requirements regarding employer contributions to group premiums; or (d) the eligible individual voluntarily ceases coverage under a health benefit plan; provided that the carrier shall be required to credit the time such person was covered under prior creditable coverage provided by a carrier if the previous coverage was continuous to a date not more than 63 days prior to the date of the request for the new coverage. A carrier shall not be required to issue a health benefit plan to an eligible individual or eligible small business if the individual or small business fails to comply with the carrier's requests for information which the carrier deems necessary to verify the application for coverage under the health benefit plan. [M.G.L. c. 176J §4(b)(2)]

A carrier shall not be required to issue a health benefit plan to an eligible individual or eligible small business if the carrier can demonstrate to the satisfaction of the commissioner that:--

pg\_\_\_\_\_ (i) the small business fails at the time of issuance or renewal to meet a participation requirement established under the definition of participation rate in section 1; or

pg\_\_\_\_\_ (ii) acceptance of an application or applications would create for the carrier a condition of financial impairment, and the carrier makes such a demonstration to the same commissioner. [M.G.L. c. 176J §4(b)(3)]

pg\_\_\_\_\_ Notwithstanding any other provision in this section, a carrier may deny an eligible individual or an eligible small business with 5 or fewer eligible employees enrollment in a health benefit plan unless the eligible individual or eligible small business enrolls through an intermediary or the connector. If an eligible individual or an eligible small business with 5 or fewer eligible employees elects to enroll through an intermediary or the connector, a carrier may not deny that eligible individual or eligible small business enrollment. The carrier shall implement such requirements consistently, treating all similarly situated eligible individuals and eligible small businesses in a similar manner. [M.G.L. c. 176J §4(b)(4)]

pg\_\_\_\_\_ Every health benefit plan shall be renewable as required by the Health Insurance Portability and Accountability Act of 1996 as amended, or by regulations promulgated under that act. [M.G.L. c. 176J §4(c)(1)]

pg\_\_\_\_\_ A carrier shall not be required to renew the health benefit plan of an eligible individual or eligible small business if the individual or small business: (i) has not paid the required premiums; (ii) has committed fraud, misrepresented whether or not a person is an eligible individual or eligible employee, or misrepresented information necessary to determine the size of a group, the participation of a group, or the premium rate for a group; (iii) failed to comply in a material manner with health benefit plan provisions including, for employers, carrier requirements regarding employer contributions to group premiums; (iv) fails, at the time of renewal, to meet the participation requirements of the plan; (v) fails, at the time of renewal, to satisfy the definition of an eligible individual or eligible small business; or, (vi) in the case of a group, is not actively engaged in business. [M.G.L. c. 176J §4(c)(2)]

pg\_\_\_\_\_ A carrier may refuse to renew enrollment for an eligible individual, eligible employee or eligible dependent if: (i) the eligible individual, eligible employee or eligible dependent has committed fraud, misrepresented whether or not he or she is an eligible individual, eligible employee or eligible dependent, or misrepresented information necessary to determine his eligibility for a health benefit plan or for specific health benefits; or (ii) the eligible individual, eligible employee or eligible dependent fails to comply in a material manner with health benefit plan provisions. [M.G.L. c. 176J §4(c)(3)]

pg\_\_\_\_\_ Nothing in this chapter shall prohibit a carrier from offering coverage in a group to a person, and his dependents, who does not satisfy the hours per week or period employed portions of the definition of eligible employee. [M.G.L. c. 176J §4(d)]
