

**Proposed Amendment to Board of Registration of Professional Engineers  
and Land Surveyors Regulations  
250 CMR 3.04(1)(c)**

250 CMR 3.04(1)(c) Principles and Practice of Engineering Examination.

1. The Principles and Practice of Engineering Examination shall be the uniform written ~~eight hour~~ examination of at least eight hours prepared by NCEES. The format of the examination is determined by NCEES and applicants must select questions in accordance with the method in effect and as required by the Board for each particular examination. Specific instructions regarding selection of questions required for an examination will be forwarded to applicants prior to the examination when the information is received from NCEES.
