

To whom it may concern,

I am truly thankful on behalf of my family & my of your continuous support on making G.T.L & it system to work better.

The system continues to be a problem of it's timing when the call is made, many of times it has occur, & I would have to make a second call. Specially when family member are ill!

Once again, I am truly thankful, my family was sick, but the time that is past is what, & I wouldn't want my family be played for a troubling system.

Thank You.
