Re: Prison telephone Rates and Quality of service

D.T.C.:

I am currently a prisoner incarcerated at MCI-Norfolk.
My telephone provider is Global Tel Link (GTL).

The phone service is important to me because it is one of
the ways I still communicate with my family.

Some of the problems that I am encountering with the GTL
service is:

- * Dropped calls.
- * No response form Customer Service.
- * The inability of the called party to properly accept the
calls from here at times.
- * Communication on the phone sometimes breaks up.
- * If money is placed on the phone by inmates, when we call
and can not get through and attempt to recall, sometimes the
system states that we have a lower amount or none at all. We
than have to wait for an hour or so until the system resets
itself.

Thank you.

Sincerely,

(2-3)
